“ Our condolences to Nancy, Scott, Carrie, Rolo, Gary, the entire family, and to all who knew him well. I (cousin Eric) have learned so much about Gordon from all of your messages and I thank you for those; you knew him better than I did and your lives are much richer for having known him as you did.

I would like to share 3 recollections of my own. First, way way back when I was a little kid, my brother David and I had an HO scale race car set in our basement in Mishawaka, Indiana. We were always trying to improve it to make the cars stay on track better and go faster. At one of the family holiday gatherings, Gordon (8 years older, our big cousin) was there of course with the rest of the family. With no prior knowledge of racing or our track, Gordon worked with us and explained the science behind banking turns and did help us improve our track. I learned a little about his intelligence and willingness to help anybody anywhere from that little event.

Second, much later in life, whenever Gordon came to Southern California for a dental conference he would always make it a point to contact me to see if we could get together, which we were able to do a couple of times. On one of those occasions, Gordon and I went for “real” Mexican food at a little hole-in-the-wall place near Los Angeles, he loved it and was totally comfortable and at home there. We had a great dinner and a great talk as I poured out my problems to him and he told me some coroner stories. He listened to me willingly, offered advice wherever he could, and never once made me feel as if my problems weren’t important to him or unmanageable by me. Very uplifting.

Third was when Gordon and Nancy were in Phoenix for one of Aunt Bernhardine’s and Uncle Dick’s wedding anniversaries or birthdays. Gordon told me how they were purchasing the old theater in Rensselaer and their plans for refurbishing it and turning it into a profitable venture and event center for the community. I asked him what they knew about doing that, and he laughed with his usual big hearty laugh and replied “nothing!” as if that were a perfectly

acceptable way to start a business. He said how they probably wouldn't do it if they knew everything that could go wrong, and that they would learn as they go. From reading the stories here, I think Gordon and Nancy learned very quickly and succeeded in their goals.

I wish I could be there to see him one last time, but circumstances won't allow it. Again, my condolences to Nancy and the entire family, may you stay strong and remember the good times as you adjust to your new lives without such an inspirational husband, father, grandfather, and friend.

“ Dr Klockow will missed. Sometimes God puts people in our lives for reason. Certainly meeting Dr Klockow falls into that category for me. He was able to diagnose my medical problem when others could not. He was able to empower me to advocate for my health which revealed an early stage of cancer and therefore was able to get treatment. He was so special in so many ways and willing to share his gifts. My deepest sympathy to the family. Sue McFarland Danville II.

“ Dr. Klockow was such a good man to my family. He made sure that all people felt included and cared for no matter who they were and where they came from. When I was just 10 years old Dr. Klockow pointed out one of my gifts and if it weren't for him I would have never been able to see that trait in myself as a gift. He had the amazing ability to not only heal cavities, but also hearts of the downtrodden. You will be missed Dr. Klockow and because of you I strive each day to succeed and as you are resting in heaven, you will not see me fail. My thoughts and prayers are with the family of Dr. Klockow. Dr Klockow went from being our family dentist in the early 90's to our family's friend, mentor, helper, leader, and confidant. He had such a positive impact on all of us; having the ability to direct you away from a bad thought or action and all the while leading you down a profoundly insightful path. You could always feel his brotherly love in happy and sad situations of daily life events. He truly was a great man and a remarkably kind and considerate man.... Thank you Gordon for all you have done for my family! You just made us feel like we all were your family and you will be missed and grieved as part of our family.

“ When my son had his jaw broken in army AIT training Dr. Klockow opened his office so he could be there the moment he arrived back in town. He was in such pain and I will forever be grateful to him for all he did. My son was later killed and again Dr. Klockow was there for us. He was truly one of the nicest, most caring people I have ever know. The world is truly a darker place without him.

“ Whenever I visited the office the staff would stick us in the closed room way in the back. They said Gordon and I were too loud for the other patients. “ He was such a good person. He was my Dentist & all my kids dentist. He had such a big heart & always a smile on his face. In 1991 a drunk driver ran a stop sign & hit the car I was a passenger in. When the car hit us my face hit the windshield hard & knocked most of my teeth when my insurance would only pay for only a couple of fittings for my false teeth he said not to worry he would take care of it. I think he was more upset about having to pull my teeth than I was. I (with the regular check ups with Dr Klockow) always took care of my teeth. My kids all loved him because he was kind & funny He will be greatly missed

I always looked up to Gordon as the patriarch of the Neitzel cousins and will never forget all our family get-togethers, involvement at Holy Trinity Lutheran Church in South Bend, etc. during our formative years. Gordon clearly did a LOT for Rensselaer and will long be remembered for all his work in the community.
