“ Have shared a lifetime with Wayne. Our travels with his parents and sister in the Apache trailer out times spent with my visits to Franklin Park. All very good memories. Only two summers ago we sat and talked about the infrequent visits we have had together and laughed about all crazy things we did as kids and of course a few times we got in a little hot water with his father.

I am sad to think we will not be able to do that anymore. Will miss you Wayne.

“ Tracey, I am so sorry for the loss of your dad. I am so glad I had the privilege of meeting Wayne. I will always remember him from our homeschool field trips. He sure loved his grandkids! The stories you shared of him still make me smile and laugh. Sending hugs. Jan Roebuck
